A Genomic architecture

Orange: published GalGal4 PNAS intervals

Structural tracks withheld pending coordinate-specific source.

B Quartet mixture

Background QQS endpoint: unavailable

Affected chr4 endpoint: available

Linear mixture curves withheld because Q_B cannot be estimated from the cached summary.

No crossover or uncertainty band is claimed.

C ASTRAL topology transition

Pending Bridges-2 coarse mixture grid

No intermediate species-tree results were fabricated.

Completed endpoint RF comparisons are reported separately.

D Specificity controls

Pending deterministic matched controls

No significance values or uncertainty bands are claimed.

See the Bridges-2 experiment manifest.
